MAJOR GENERAL O. O. HOWARD. We noticed yesterday the report that Major General U. O. Howard, chief of the Bureau of Retugees, Freedmen and Abandoned Lands, will shortly be relieved from duty, and an of colonel be assigned to the bureau. There seems to be no doubt of some change being made shortly, as the subject has been under advisement for some time past. It is currently reported that nearly a month since the President offered the position of chief of the Bureau to Mr. John M. Langston, the colored lawyer of Ohio, who is now engaged in addressing the colored people of Virginia on their educational interests, but that he declined. We have heard no reason assigned for the proposed change. It is admitted by all except the New Orleans. Louisiana, to reliev Major most prejudiced partizans that Gen. Howard | General P. H. Sheridan of the command of the has conducted the affairs of the Bureau with proper energy, but at the same time with prudence and circumspection. He has not only done a great deal for the relief and elevation of thousands of the white people in that section from starvation, with the means placed at his disposal, and has given them good counsel-No one, even if he had been the most just and perfect man living, could have taken charge of the Freedman's Bureau and conducted it ever from 'certain quarters. The only wonder is, that Gen. Howard has not met more vituperation and been more violently assailed, in performing a duty which was sure to bring his motives under suspicion, and lead to a rigid scrutiny of his every act. That he has been heart and soul with Congress in its efforts to bring about a safe and permanent reconstruction of the Southern States, is the werst thing ple, is his greatest merit. That he has been strictly conscientions in the discharge of his duties, there is no doubt.

THE PATENT FOR MAKING PAPER FROM WOOD. IMPORTANT DECISION

Theaker, Commissioner of Pattents, has made a decision in the case of Watt and Burgess, owners of the patent for making paper from wood and other vegetable matter, who applied for an extension of their patent which expired yesterday The decision has not yet been promulgated, but it is said that the extension has been granted as prayed. It was shown in evidence before the Examiner that the patentees had not received a fair remuneration for their invention, and had the Commissioner refused to grant the extension, they would have had no remedy; but the same being extended, the case can be carried to court, where a full and fair examination can be had, and a decision rendered which will secure the rights of all parties The de cision of the Commissioner will be made pub. lic in a few days, and the case will be carried before the U. A GENERAL WANT The Baltimore Commercial, referring to an article in the Star urging the business men of Wa hington to adopt some comprehensive plan for supplying the large body of government clerks with suitable tenements at a moderate

· Now we would insist upon the Star's suggestion as of eminent use here, for no city has surrounding it cheaper or more beautiful building sites for the class of dwellings indicated. And whi st already, and under the old order of things, our people have been supplied to an immense extent with single tenements, almost every wood-sawyer or whitewasher even being able at some rate to have his own tenement. however bumble, we insist that the needs of all should be consulted, so that never should we te subjected to the evils of that terrible infliction, "tenement houses," huge barracks where the unfortunate, the thousands of limited means, are compelled to find shelter. their lives, mean while, being in deadly peril from fire, pestilence or other visitations which upon occasion find them an easy prey. Baltimore has started aright in this respect in ignoring this style of doing things; we can only express the hope that hereafter no class may seek the city as a home without finding at the most reasonable rates all they need and expect. Whilst an unusually large number of .. first class" and "second class" houses have been going up the present season, there appears to be wanting-to a large extent -another class of houses, handsome although small and pleasantly situated tenements, such as might accommodate persons of limited but assured in. comes. who would prefer to reside in this city as housekeepers, rather than be driven into what are commonly termed "genteel boarding houses" here or elsewhere."

DUBL NEAR NEW YORK-Three Exchanges .-Shortly after 5 o'clock Saturday morning, two gentlemen, with two friends and a surgeon, met at Webawken. They were a Mr. James Wilson, residing at West 25th street, New York, about 28 years of age, an Englishman, lish wool importing house in New York, and the other was Senor Francis di Ballo, a Cuban, reported to be possessed of fabulous wealth, and a large plantation owner lionaire, to whom both paid their addresses. The jealousy culminated in a fracas at Delmonico's, and a subsequent encounter in the streets. The message, &c., being duly attended to, according to the etiquette of honor the parties were placed twenty spaces asunder Saturday morning. Shot No. 1 took no effect on either. No. 2 took a nip out of Wilson's ear. when the seconds proposed to withdraw the men, blood having been spilt. The Spaniard obstinately refused, so they fired again. The Senor's shot was ineffective, but Wilson, taking deliberate aim, shot his opponent in what the Irishman called the "fleshy part of the left thigh bone." The utmost possible use is made in Wall street of the late rumors of irregularities in the Treasury Department, but the bulls have so far had their labor for their pains. The New York Sun thinks the best proof of the ground ea ness of the charges of corruption is the utter disregard of the censation reports by the best financiers. An effort was made yesterday to run gold up, and it reached 141%; but subsequently upon cable despatches reporting an advance in Five-twenties at London to 74 %, the premium was weaker. A STROLOGY. THE WORLD ASTONISHED MADE BY THE GREAT ASTROLOGIST,
MADAME H. A. PERRIGO,

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen preperty, tells you the business you are best qualified to pursue, and in what you will be most successful, causes speedy marriages, and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the malefic stars that overcome or predominate in the configuration—from the aspects and position of the planets and the fixed stars in the heavens as of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrolegist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, \$1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, cent by mail on receipt of price above mentioned. The strictest secrety will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a lock of hair. Address
